

ENVIRONMENTAL/RFR STATEMENT
IN SUPPORT OF
MINOR CHANGE IN A LICENSED FACILITY
KZCO-LD
DENVER, CO

This report addresses only the conditions specified in 47CFR1.1307 that deal with Radio Frequency Radiation. Any other non-RFR conditions that might require the preparation of an EA are beyond the scope of this report.

The location of the proposed post-incentive auction facility is assumed to currently be “in compliance” with FCC guidelines for human exposure to RFR (as defined in OET-65). The worst case ground level RFR contributed to the site by this proposal in public areas is calculated to be 0.050015 mW/cm², which is substantially less than the MPE for public exposure (0.379333 mW/cm²) at Ch. 30 (566-572 MHz).

Scripps agrees to comply with the Commission’s requirements regarding power adjustments or cessation of operation as may be necessary to ensure a compliant environment for worker access. Workers will be trained on RFR issues and encouraged to wear personal RFR monitors when on the structure. Access to the site is restricted through the use of a locked security fence.
