

KVFW-LD, Ft. Worth, TX

Facility ID 53433

New York Spectrum Holding Company, LLC

EXPLANATION FOR SILENT STA

Station KVFW-LD is one of four stations that filed mutually exclusive applications in the LPTV displacement window. All four applicants amended their applications to accept incoming interference from any of the other applicants in MX Group No. 60. The FCC granted the KVFW-LD displacement application (LMS- 0000053902) on January 15, 2019. The CP cannot be implemented until the four parties reach an agreement on an engineering or other solution to enable all four stations to operate in an optimal manner. The station has been removed from the air while discussions are ongoing and the CP can be implemented.
