

Request for Extension of Special Temporary Authority

DTV America Corp. ("Licensee"), licensee of KFKZ-LD (Facility ID 188737) ("Station") respectfully requests extension of its Special Temporary Authority ("STA") granted on September 4, 2018 (*See* File No 0000059388) to remain silent for a period of up to six months while it constructs a permanent broadcast facility for this Low Power Television ("LPTV") station. The request is supported by good cause and granting it would further the public interest.

Licensee hereby submits that its intent is to not extend, delay, or otherwise impact the station's planned return to air date. All efforts are underway to meet required FCC deadlines, and the station plans to be on the air prior to the station's 312(g) deadline of September 1, 2019. The Station has hired a tower crew, and orders were placed for a transmitter on February 25, 2019 and a filter on February 24, 2019. The Station will install a dish for delivery of content. The Station expects to be on the air by March 28, 2019.

The grant of the proposed STA extension will serve the public interest by providing the Station with needed additional time for the station to go on-air to provide service to the public. For these reasons, the licensee respectfully requests that the Media Bureau expeditiously grant Licensee's request for an STA to remain silent while it constructs a permanent broadcast facility, consistent with the FCC's rules and policies. The Station will act accordingly to make progress and will update the Commission as soon as the Station plans to be on-air, consistent with the Commission's Rules.
