

Reason for Suspension of Operations and STA Request for K46iID

This station ceased broadcasting on February 28, 2019 in response to a notice to vacate Channel 46 from T-Mobile, the wireless company that was successful in the Incentive Auction and is implementing wireless service on the frequency. We hold an STA for operation with a temporary antenna on Channel 4 under call sign K04SB-D while awaiting delivery of an antenna for operations in accordance with our Channel 4 construction permit in File No. BPD TT-20140725AAE. However there has been a delay in delivery of the Channel 4 transmitter. The station will therefore be off the air until the transmitter is delivered and installed and operations under the STA commence pending completion of the project when the new antenna is delivered.
