

Reason for Suspension of Operations and STA Request for K47CC-D

This station ceased broadcasting on February 28, 2019 in response to a notice to vacate Channel 47 from T-Mobile, the wireless company that was successful in the Incentive Auction and is implementing wireless service on the frequency. Our displacement application to go to Channel 23 in File No. 0000054784 was just granted today, so the translator has temporarily been removed from service until the construction permit can be implemented.
