

Community Television, Inc.  
Request for Extension of Silent STA 000059607  
WHDS-LD, Savannah, GA  
Fac. Id. 167565

Extension Justification

WHDS-LD ceased operations on channel 41 on September 13, 2018 because of T-Mobile's notice of initiation of services using that channel beginning September 18, 2018. Community Television has obtained a displacement construction permit (LMS #0000054260) for facilities on channel 20 and recently obtained a modification of that permit to change to a different transmitter site (LMS #0000067538). Community is now finalizing construction plans and requests an extension of the existing silent STA to enable it to complete construction of its new channel 20 facilities. An extension of six months, through September 12, 2019 is respectfully requested.
