

**WTXX-LD, New Haven, CT**  
**Facility ID No. 31453**  
**Request to Extend Engineering STA**

**REQUEST FOR EXTENSION OF ENGINEERING STA**

HC2 Station Group, Inc. (“HC2”) requests an extension of the engineering STA granted Station WTXX-LD to operate using the shared facilities of Station WEDW, Bridgeport, CT (Facility ID No. 13594). *See* FCC File No. 0000059479 (granted Sept. 26, 2018).

As HC2 explained in seeking the original STA, WTXX-LD was displaced from its original channel. It has filed a displacement application to relocate to channel 29. FCC File Nos. 0000053148 (filed April 20, 2018; amendment filed Nov. 13, 2018). Channel 29, however, is presently used by Station WUTF-TV, Worcester, MA (Facility ID No. 30577), which is scheduled to transition to channel 19 in Phase Four of the post-auction transition. Until that occurs, on or around June 22, 2019, HC2 cannot commence operations on channel 29, and requests authority to continue to operate pursuant to the STA on facilities shared with WEDW until it can move to its own displacement channel.
