

Supplement Exhibit

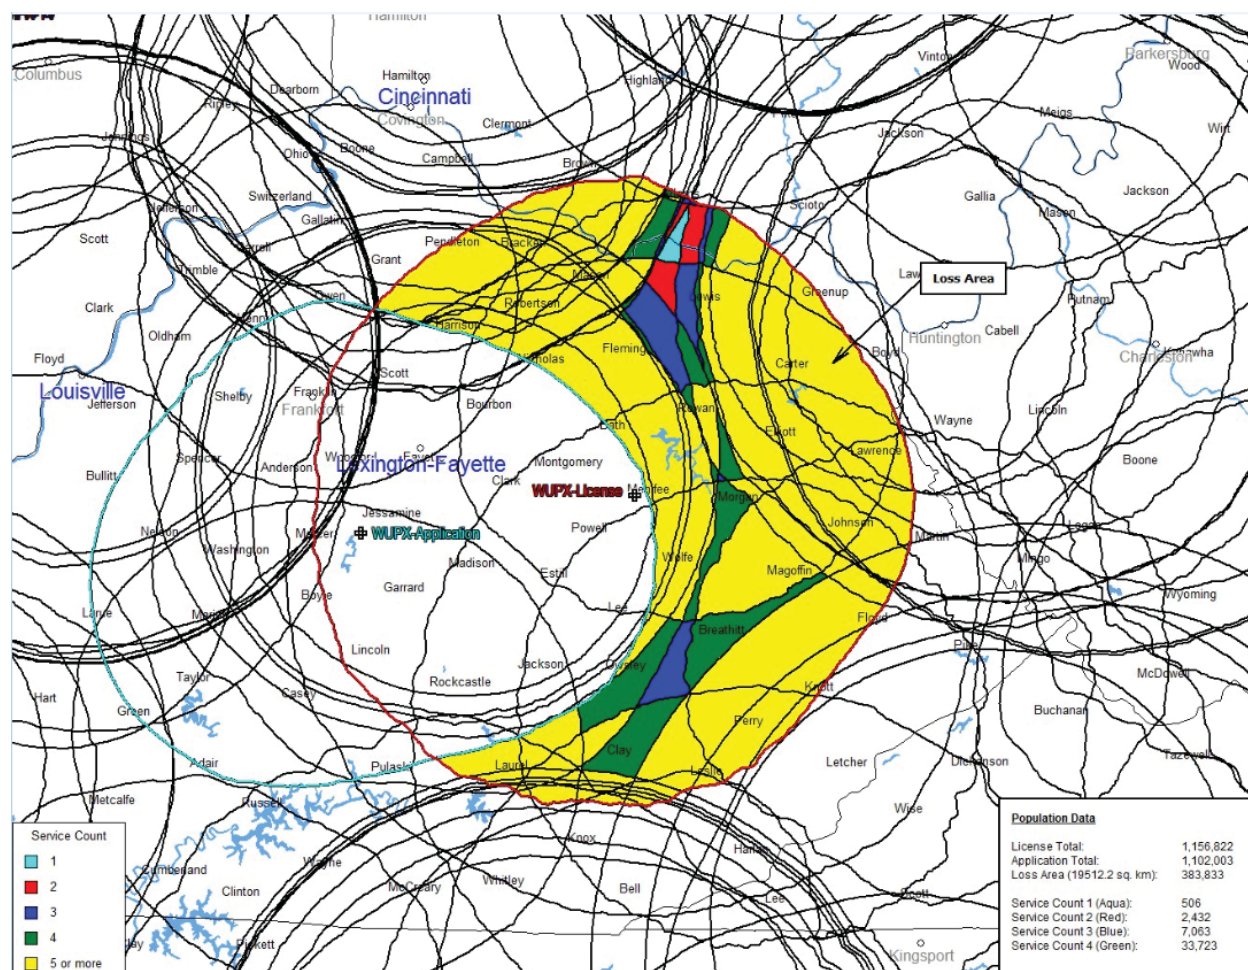

WUPX-TV Richmond, Kentucky Facility ID: 23128

Attached are four maps submitted with the Construction Permit modification showing the gain and loss areas for this application.

Figure 1 and its Population Data chart show a gray area (the small aqua shaded region in the northeast) of 506 persons based on ION's proposed facilities and the current licensed facilities of other licensed stations. Figure 2 and its Population Data chart shows that after construction of the all stations' currently authorized repack facilities, the gray area shrinks to 143 persons.

Also Figures 3 and 4 and their Population Data charts show ION's proposed facility will eliminate a gray area (the aqua shaded region to the southwest) covering 9994 persons.
