REASON FOR GOING SILENT

The station operates on Channel 45, which is no longer allotted for TV broadcasting. The station must move to a new channel. The licensee plans to apply for a construction permit for displacement relief when the application freeze is lifted on April 18, 2019. That application will include a change of transmitter site.

The station has suspended operation pending implementation of the channel and site changes. Because the displacement application will not have been processed within 30 days after the station went silent, a request for and STA is being made now, rather than just notifying the Commission that the station is silent.
