I. INTRODUCTION

1. The Commission has before it a petition for rulemaking filed by ION Media License Company, LLC (ION or Petitioner), licensee of digital television station WPXH-TV, channel 45, Gadsden, Alabama (WPXH).¹ ION requests an amendment to the Post-Transition Table of DTV Allotments to delete channel 45 at Gadsden, Alabama, and substitute channel 45 at Hoover, Alabama.² ION also requests modification of WPXH's license to specify Hoover as its community of license pursuant to Section 1.420(i) of the Commission's rules.³

II. BACKGROUND

2. Section 1.420(i) of the rules provides that the Commission, during a rulemaking proceeding to amend the Post-Transition Table of DTV Allotments, may modify a station's license to specify a new community of license without affording other interested parties an opportunity to file competing expressions of interest.⁴ The Commission will apply this procedure in the limited circumstances where: (1) the new allotment will be mutually exclusive with a station's existing allotment; (2) the new allotment will result in a preferential arrangement of the allotments according to

¹ Petition for Rulemaking of ION Media License Company, LLC (filed Dec. 3, 2018) (Petition).

⁴ 47 CFR § 1.420(i); see *Modification of FM and TV Authorizations to Specify a New Community of License*, Report and Order, 4 FCC Rcd 4870, 4873, para. 22 (1989) (*Change in Community R&O*) ("[W]e will amend the Commission's rules to provide a procedure whereby a licensee or permittee may petition the Commission for an amendment to the FM and television tables of allotments, and modification of its license accordingly, without placing its existing authorization at risk"), *recon. granted in part*, 5 FCC Rcd 7094 (1990) (*Recon MO&O*).

the Commission's television allotment priorities; and (3) the new allotment will not deprive a community of its sole local transmission outlet.⁵

III. DISCUSSION

3. ION's proposed reallocation is mutually exclusive with WPXH's current allotment because it is based on the technical specifications currently authorized for WPXH.⁶ Second, ION asserts that the proposed reallocation represents a preferential arrangement of allotments under the Commission's second allotment priority by providing Hoover with its first local transmission service.⁷ ION explains that Hoover (population of 81,619, compared to Gadsden's population of 36,856) qualifies as a community for allotment purposes because it is a much larger community than Gadsden and is the sixth largest city in Alabama.⁸ ION notes that Hoover has an active government that provides "a full range of services such as E911 Emergency Services, Hoover Police Department, City of Hoover Fire Department, Public Works Department, and Utilities (including Water, Gas and Electricity, Garbage and Recycling)."⁹ Furthermore, ION documents that Hoover has seven hospitals/medical centers, two historic sites, two performing arts centers, a public library, a local newspaper, and numerous sports facilities.¹⁰ Finally, ION asserts that the proposed reallocation will not deprive Gadsden of its sole broadcast station as it will continue to be served by station WTJP-TV, channel 26, licensed to Trinity Christian Center of Santa Ana, Inc.¹¹

4. Currently, the station's authorized transmission facility places the required principal community coverage over 96.2 percent of the city of Hoover.¹² However, ION was assigned a new channel in connection with the incentive auction and repacking process. ION's authorized post-auction facility,¹³ which must be constructed no later than September 6, 2019, will place the required principal community signal over 100 percent of Hoover. Therefore, in addition to the proposed reallocation, ION requests a temporary waiver of Section 73.652(a)(1) of the rules.

⁵ *Change in Community RO&O*, 4 FCC Rcd at 4874, para. 28. The Commission determines a preferential arrangement of the allotments based on the following five priorities: (1) provide at least one television service to all parts of the United States; (2) provide each community with at least one television broadcast station; (3) provide a choice of at least two television services to all parts of the United States; (4) provide each community with at least two television broadcast stations; and (5) assign any remaining channels to communities based on population, geographic location, and the number of television services available to the community from stations located in other communities. *Amendment of Section 3.606 of the Commission's Rules and Regulations*, Sixth Report and Order, 41 F.C.C. 148, 167-173 (1952). The Commission will entertain a request to waive the prohibition on the removal of local service in the rare circumstances where such a removal might serve the public interest by, for example, providing a first reception service to a significantly sized population. *Recon MO&O*, 5 FCC Rcd at 7096, para. 17.
