

AMENDMENT

This report is amended to properly report programming changes caused by technical issues with the E/I bug.

Specifically, on Friday, January 4, 2019, two of the three E/I programs regularly scheduled on the ION Television network (3.3) aired without displaying the symbol E/I symbol due to an unforeseen technical issue. The technical issue was identified and corrected. Accordingly, the episodes were rescheduled and re-aired in their entirety with the proper E/I symbol on Friday, January 18, 2019, as follows:

1. Animal Science 10am and 10:30am ET/PT (9:00am and 9:30am CT/MT) and
2. Zoo Clues 12:00pm and 12:30pm ET/PT (11:00am and 11:30am CT/MT).

The programming aired on January 4, 2019, without the E/I symbol are reported in this amended report as non-core programming.

This Amendment also updates the projected programming listed in the Other Matters section for Channel 3.3.
