REQUESTED RULE WAIVERS

Two rule waivers are requested:

1. Section 73.3517, with regard to contingent applications, to allow this application to be filed for Channel 16 before the incumbent station on that channel has completed its approved move to a new channel pursuant to the television spectrum repack.
2. Section 74.709, with regard to the use of Channel 16 in the Cleveland area that is first-adjacent to a land mobile channel reservation that has not been and cannot be implemented.

The justifications for both waivers are presented in the Engineering Statement and Exhibit A to that Statement, attached separately to this application.
