Request for silent STA

K25FW-D on channel 25 had to be shut down on 04/12/2019 due to complete failure of both air conditioning systems. KPXD-DT was also scheduled to begin testing on their post-repack channel 25 on 04/13/2019 according to the phase 3 timeline.

Therefore, Ventana Television Inc. seeks temporary relief from section 74.763(b) in the form of a silent STA until the facility can be rebuilt on channel 07 per its displacement CP (0000054800).

This application is in the public interest by enabling K25FW-D to return to normal broadcasting as soon as the new facility can be constructed on channel 7 and the air conditioning systems replaced.

A silent STA is requested for a period of six months from the date of this application.
