

Regarding “DTS Facility Requirements” Questions

In the DTS Facility Requirements section of the Construction Permit Certifications page of the KVMD Construction Permit Application, the answers to two questions caused instructions to appear to upload Exhibit justifications. The questions and the locations of the related justifications are:

- “The combined coverage from all of the DTS transmitters in the proposed DTS facility covers all of the station's authorized service area, as required in 47 C.F.R. Section 73.626(f)(1).”

This was answered “No.” For the justification and discussion of a possible waiver, please see the attached Technical Statement in the section on Reference Point Relocation and Service Areas.

- “Each DTS transmitter's coverage is contained within either the TV station's Table of Distances area (47 C.F.R. Section 73.626 (c)) or its authorized service area, except where such coverage is of a minimal amount and necessary to meet the requirements of 47 C.F.R. Section 73.626(f)(1).”

This was answered “Yes, but coverage exceeds station's authorized service area by ‘minimal amount’.” For the justification and discussion of a possible waiver, please see the attached Technical Statement in the section on Reference Point Relocation and Service Areas.
