

Exhibit 1
Ownership Report and Online Public Inspection File Compliance

Tschudy Broadcasting, Inc. cannot certify that all documentation required by the Commission's Public Inspection File rule was uploaded as and when required in that the licensee's 2017 biennial Ownership Report was not timely filed due to an inadvertent administrative oversight by the station's licensee. The report now has been filed and will be automatically uploaded to each station's Online Public Inspection File. Tschudy Broadcasting, Inc. appreciates the importance of complying with all Commission rules and regrets filing the 2017 Ownership Report late. The licensee has engaged new communications counsel since the 2017 Ownership Report filing deadline and taken other steps to avoid such oversights occurring in the future.
