

WPNM-LP (formerly WLQP-LP) Request for Further Extension of Current STA

West Central Ohio Broadcasting, Inc. hereby requests a further extension of its current STA (FCC File #0000063817) to continue operation at the reduced power of 7.5kW until construction of its permanent digital facilities (FCC File No. 0000054500) is completed. As noted in previous extension requests, the station carries ABC programming, and there is meaningful over-the-air viewership of these temporary operations in and around the community, so grant would be in the public interest. In the unlikely event that objectional interference is caused, WPNM-LP is willing to take all steps to eliminate such, including modifying operating parameters or suspending operation, if necessary. West Central Ohio Broadcasting, Inc. understands that grant of this extension does not provide any permanent authority to operate the station in the manner proposed.
