WHDC-LP BDFCDVL-20130308AEW FacID# 10548

CHARLESTON, SOUTH CAROLINA

APPLICATION FOR A MINOR MODIFICATION OF
CONSTRUCTION PERMIT TO INCREASE POWER; RELOCATE
TRANSMITTER SITE, AND DECREASE ANTENNA C/R

STATION RELOCATION CONTOUR OVERLAP AND
TRANSMITTER DISTANCE SHOWING

Figure EE-1, separately uploaded, shows the 48 dBu noise limited contours for both the present WHDC-LP transmitter site and the proposed WHDC-LP transmitter site. The 48 dBu contours from both sites have considerable overlap thus qualifying as a minor change under 47 CFR 73.3572(a)(2)(ii) and, as shown below, also satisfying the 30 mile Rule.

Figure EE-1 shows the actual distance between the presently licensed and the proposed location for WHDC-LP as 1.56 miles which is less than the allowable 30 miles as permitted by the Rules. The City of License remains Charleston, South Carolina.
