

**Character Issues, Adverse Findings, Alien Ownership and Control, and
Anti-Drug Abuse Act of 1988 Certifications**

As demonstrated in the most recent Biennial Ownership Report for WAMU(FM), Washington, District of Columbia (Facility ID No. 65399) (“WAMU”),¹ there are many individuals whom are each deemed a “party to the application” for purposes of WAMU’s license renewal application’s Character Issues, Adverse Findings, Alien Ownership and Control, and Anti-Drug Abuse Act of 1988 certifications (collectively, the “Certifications”). These individuals comprise members of WAMU’s licensee, the Board of Trustees of American University, as well as the officers of American University.

WAMU has no reason to believe that any of American University’s officers and board members are unable to certify “Yes” to the Certifications. Nevertheless, WAMU is currently querying each of American University’s officers and board members to confirm that this is accurate.

¹ See File No. 0000045184.
