

## **TECHNICAL EXHIBIT**

FACILITY: W19DU-D, FI 185505  
CLARKSBURG, WV  
THE EDGE SPECTRUM INC.  
Existing FCC file number -0000068785

1. Channel is displaced to 29, FULL SERVICE MASK
2. Antenna is changed to MCI 955414 see tabulation.
3. ERP is to be 10 kW.
4. Antenna is to be located at tower ASR 1226149; orientation 95° at 75.0M AGL.

No other changes are to be made. NIER is less than 5% of the limit for this service; no new tower construction or changes are planned. In keeping with the original plan, RF hazard warning signage and appropriate access limits are employed. Antenna and related facilities are shared with co-owned W38EY-D; interference, if any, will be resolved.

Using the specified equipment, pattern and ERP, the application is in compliance with all pertinent portions of §74.793 with respect to all other existing part 73 and part 74 licenses, permits and applications known as of the time of filing; however, as a station in the LPTV or TX service which is displaced into the core or otherwise required to modify its facilities in accordance with the presence of an incoming repacked full service station assigned to its previous channel, the within applicant agrees, if necessary, to not operate on the channel or with the service proposed in the within application until any potentially mutually interfering repacked full service or analog station or stations have left their channels pursuant to the relevant phase assignments and further agrees to accept nominal amounts of interference from permits or licenses in existence at the time of this filing.
