

Exhibit Relating to Biennial Ownership Report Certifications

The applicant has responded in the affirmative to the biennial ownership reporting certification that states: "Licensee certifies that the station's Biennial Ownership Report (FCC Form 323 or 323-E) has been filed with the Commission, as required by 47 C.F.R. Sections 73.3615 and 74.797."

The applicant wishes to make the following observation that may be relevant to the foregoing certification:

Ownership Reports. The licensee has timely filed its biennial ownership reports at all times during the current license term except that the biennial ownership report due December 1, 2015, was not timely filed. As such, WKLTV and WBBC-FM arguably did not timely place the 2015 biennial ownership report in the respective public file; note, however, that when it was discovered that the report had not been filed, the licensee immediately corrected the problem and filed the report on January 19, 2016 (File No. BOA-20160119ADF).

In any event, the most recently-filed biennial ownership report (timely filed by the March 2, 2018, deadline) supersedes any prior ownership information, and no material changes to the ownership of the station occurred during the license term. We respectfully submit that neither the public nor the Commission have been prejudiced by the failure to timely file the 2015 biennial ownership report because no changes in ownership (including attributable parties) or ownership structure occurred.
