

REDUCED POWER OPERATIONS and REQUEST for STA

Nexstar Broadcasting, Inc. ("Nexstar"), licensee of K23OC-D, Lincoln City/Newport, Oregon, FAC ID 35371 (the "Station"), hereby notifies the Commission of reduced power operations. The Station was forced to reduce its normal transmitter output power, 500 watts, by 70% due to interference issues with the Lincoln County 911 system. Additionally, the Station's ERP also reduces to 2.14 kW. Nexstar has taken steps to resolve the issue but the repair has not yet been completed. Accordingly, Nexstar seeks special temporary authority to continue reduced power operations until the repairs are completed, and the station resumes normal authorized operations.
