

Engineering Statement  
Construction Almost Complete  
***CBS Broadcasting Inc.***  
KCBS-TV Los Angeles, California  
Facility ID 9628

CBS Broadcasting Inc. (*CBS*) is required by the FCC to modify its KCBS-TV Los Angeles, CA transmission facilities by changing from Channel 43 to Channel 31 during Phase 2. This Statement is provided to clarify construction status in the second quarterly report for 2019.

KCBS-TV completed a timely transition to Channel 31 on April 12<sup>th</sup>, 2019 and has licensed the new facility. Although much progress has been made according to schedule, it is still necessary to complete commissioning of the newly installed auxiliary transmitter at the former main site and complete the combiner installation at the KCBS- tertiary site at Verdugo Peak. When the last portion of the project has been completed, *CBS* will file a Transition Progress Report signifying that construction has been completed.
