**Subject:** WLNE - ULXTE-30 JW30004589 Shipping schedule/Order Acknowledgement  
**Attachments:** WLNE - JW30004589 ULXTE-30 - OA.pdf

Hi Dan,

Formalizing shipping schedule. We have the ULXTE-30 for WLNE scheduled to ship around August 19<sup>th</sup>. We have the filter, 4" RF line kit, Bird Load, and Switch setup to drop ship direct. We'll be in touch prior to shipment to go over detailed shipping instructions.

**Transmitter Configuration:**

Channel: 24

TPO: 13.4kw post filter

Dual Exciter

AC Line Voltage: 208/240v 3 phase (112.5kv step down transformer line item on order)

*There is a payment due prior to shipment. Angie Christ and/or Jackie Drebes, copied from Finance, will send invoice separately in advance for processing.*

I have also copied our Service Manager (David Motley) 217-221-7275, Service Coordinator (Greg Wainman 217-221-7379), and Service Support Scheduler/Planner (Fred Fleischman 217-221-7068) to contact for services to schedule tentative dates for your installation.

Please review and let us know if you have any questions.

We look forward to working with you on this repack project.

Best Regards,

**Shelley Rossmiller**
