

ATTACHMENT TO FORM 398  
CHILDREN'S TELEVISION REPORT  
KJJC-TV Fac. ID#13792

This Report is being filed on July 18, 2019, which is 8 days past the deadline of July 10, 2019, due to circumstances over which the Licensee had no control, and were the result of a mistake within the FCC (*unknown to the Licensee, since the last time the Licensee had logged in to the LMS, the FCC had disassociated KJJC-TV's facility ID #13792 from its FRN 0021402961*).

The Licensee DID, in fact, compile all data for its Children's Television Report prior to the July 10, 2019, deadline and logged in to the LMS to timely file the Form 398 on July 10, 2019, but upon logging in to the LMS under its FRN as it always has, discovered that its station was no longer linked to the FRN.

As a result, the Licensee had no way of filing the report until the FCC corrected the situation.

On July 10, 2019, after discovering that there was a problem within the LMS, the Licensee promptly notified the FCC that it was unable to file its Report and asked the FCC's help in getting the matter resolved.

Over the next few days, there was communication between the FCC and the Licensee, with the FCC ultimately notifying the Licensee that KJJC-TV was now associated with the FRN 0002710192.

Upon hearing that, the Licensee notified the FCC that the FRN 0002710192 was actually the FRN of Scripps Broadcast Holdings, which had recently purchased another TV station in the market, but that KJJC-TV has never had any connection with Scripps and requested that the FCC correct its error and link KJJC-TV with its own FRN once again.

On July 15, 2019, the Licensee received an email from the FCC notifying us that he had corrected the mistake.

Mr. Roger Lonnquist, the Licensee's staff member in charge of filing the Form 398, was out of town and as a result out of the office, when the email arrived, but completed the Form 398 as quickly as possible upon his return to the office the afternoon of July 18, 2019.

Questions regarding this matter may be directed to Roger Lonnquist.
