Licensee of WNYN-LD, New York, New York; FCC Facility ID 74305,
LMS File No. 0000048135

PURPOSE OF AMENDMENT

The purpose of this amendment is to submit a partial settlement among applicants in MX Group No. 51, as listed in the Commission's Public Notice, DA 18-1108, released October 30, 2018, and also to waive incoming interference from two other applications in the MX Group.

The settlement is between WYXN-LD, LMS File No. 0000054668, and WNYN-LD, LMS File No. 0000048135, and provides for channel sharing by those two applicants.

Attached are:

1. Joint Petition for Approval of Settlement
2. Settlement Agreement
3. Channel Sharing Agreement

Declarations of each applicant are appended to the Settlement Agreement, specifying that their application was not filed for the purpose of settlement, no consideration has been paid or promised for the settlement, and the settlement will serve the public interest by increasing the prospects for both stations to continue to provide programming service to the public.

In addition, TVC NY Licensee LLC, the applicant, hereby waives any objection to, and accepts incoming interference from, the two applications in MX Group No. 51 that propose operation on Channel 31:

LMS File No. 0000052801, W26DC-D; FCC Facility ID 49882
LMS File No. 0000054804, W34DI-D; FCC Facility ID 127812

The applicant believes that the amount of incoming interference from W34DI-D is only slightly in excess of the permitted 2%, and the incoming interference from W26DC-D does not exceed 2%. Nevertheless, if the Commission finds that incoming interference from either or both stations exceeds 2%, the applicant accepts that interference.

Acceptance of incoming interference is limited to the two above-referenced Channel 31 applications with the facilities proposed in their applications as of January 10, 2019.

The applicant does not believe that its proposal would cause more than 2% interference to either of the Channel 31 applications.
