

DK66DU FI 38922

The Applicant previously had a license for analog channel 66, K66DU. They filed for a displacement channel into the core, BDISTT20111230ABS on Ch 25 analog. Applicant built the station but failed to file a license to cover construction. Applicant has filed to change all of their analog stations to digital operation and wants to continue to serve the public with all six channels in digital format. In order to continue all channels, Applicant is seeking an STA to operate on digital Ch 25. Applicant will file for a permanent channel at the next available opportunity.

Existing site, no new construction.
