

## Acknowledgement and Waiver of Interference

Call Sign: WDWL-LD, W42DU-D, AND WYGA-CD

Facility ID: 125861, 182095, AND 168094

Applicant respectfully submits this acknowledgement of interference between its commonly owned stations WDWL-LD, W42DU-D, AND WYGA-CD and, to the extent necessary, seeks a waiver of the Commission's rules related to interference thresholds for LPTV and TV translator station protection of broadcast stations.<sup>1</sup>

Applicant has used *TVStudy* to identify Channel 28 as an available channel for the station's proposed displacement facility for WDWL-LD. Applicant acknowledges that relocating WDWL-LD to Channel 28 with the included technical parameters will result in interference to W42DU-D greater than the amounts LPTV and translator stations are allowed to create under the Commission's rules.<sup>2</sup> Additionally, the technical specs will be MX'd with our commonly owned WYGA-CD.

The Commission may waive its rules on its own motion or upon a showing of good cause for a waiver.<sup>3</sup> The FCC has recognized that LPTV and TV translator stations may choose to accept interference from other stations.<sup>4</sup> Here, WDWL-LD, W42DU-D, AND WYGA-CD are commonly owned or controlled by Applicant's ultimate parent company. The licensee of W42DU-D AND WYGA-CD has agreed to accept the interference that the relocation WDWL-LD may create. Applicant therefore asks the Commission to grant the displacement application notwithstanding this interference and, to the extent necessary, waive section 74.793(e)-(h) of the rules governing interference thresholds for LPTV and TV translator stations to promote the public interest in timely broadcast relocation and in the continued provision of over-the-air television service to the public.
