

## ONLINE PUBLIC INSPECTION FILE

The licensee experienced difficulties in uploading the required local public file materials to the FCC's online public file. In September, 2017 the Virgin Islands were hit by back-to-back Category 5 hurricanes: Irma and then, two weeks later, Maria. As of March, 2018, the radio stations' main studios had just gotten commercial power restored. Nonetheless, the licensee has worked diligently to upload the required materials and, as of this date, the required materials have been uploaded to the online public files.
