License Renewal Applications

#### Statement Concerning Online Public File Completeness

To the best of the licensee's knowledge, all required items are now in the online public files for the above entities, and each is complete in all respects. However, the online public files were established late, due to the devastating effects of Hurricane Maria, which did severe damage to the business office that serves each of the above licensees and all stations licensed to those licensees. The computers were destroyed by the Hurricane, as were numerous paper files, and all documents predating the Hurricane had to be recreated thereafter. It took some time to complete that task. Also, reliable internet service has not been consistently available in areas of Puerto Rico due to Hurricane Maria. However, it is believed that as of the date of this application, all required documents have been uploaded to the public file and it is now believed to be complete.
