During the past twelve months, RAAD BROADCASTING CORPORATION has had no vacancies for a full-time position, due to economic conditions in Puerto Rico and in radio broadcasting generally, and due to the devastating effects of Hurricane Maria on the economy of the Island. Any vacancies would have been the result of outreach notifications to community groups and contact sources listed below.

RAAD BROADCASTING CORPORATION is an equal opportunity employer and, under current management, have followed a consistent practice of outreach to the station's community of license and surrounding areas of northern Puerto Rico, and work forces regarding broadcast career and job opportunities. As of the past year, the station is continuing those EEO efforts, though no vacancies are anticipated. It is noted that most of the job force in Puerto Rico is of Hispanic descent.

Broad and inclusive outreach has been achieved during the reporting period, first by informing employees and recognized employee organizations of the stations' EEO policy and program, and by making sure all levels of management and employment unit personnel understand our EEO policy, thus ensuring equal employment opportunities and preventing discrimination. No instance of discrimination on the basis of race, ethnic origin, age, sex, or sexual orientation will be tolerated.
