

WKPX  
RENEWAL EXHIBIT REGARDING  
RULE COMPLIANCE AND PUBLIC FILE

The licensee has not identified any items that are presently missing from the public inspection file.

The 2018 Third Quarter Issues Programming Report was due by 10/10/2018, but was uploaded late on 1/28/2019. The 2018 Fourth Quarter Issues Programming Report was due by 1/10/2019, but was uploaded late on 1/28/2019.

The 2014 Biennial Ownership Report, while dated 12/10/2014 appeared to have been missing from the FCC's database and was uploaded again on 2/29/2016 in conjunction with the filing of the 2016 report.

WKPX did monitor, but was not able to rebroadcast a required August 2019 National EAS Test due to a break down up the chain that resulted in no alert being received through the system at the scheduled time. WKPX does not believe this to have been a rule violation, but is mentioning it nonetheless out of an abundance of caution.

The importance of meeting deadlines on a timely basis has been explained to staff to ensure a more compliant record with the timely submission of notice required filings in the future.
