

Request for Special Temporary Authority to Remain Silent

Station Venture Operations, LP (“SVO”), the licensee of digital low power TV station WYCN-LD [formerly WBTS-LD], Providence, Rhode Island (FIN 64996), hereby respectfully requests that the FCC grant special temporary authority for WYCN-LD to remain silent.

As a result of displacement, WYCN-LD terminated operations on its pre-auction channel 46 on August 31, 2019.¹ Although WYCN-LD is in the process of completing construction of its displacement channel 36 facilities (File No. 0000053958), it will take another week or so to complete construction. Accordingly, SVO requests that the FCC grant special temporary authority for WYCN-LD to remain silent until the station completes construction of its displacement channel facilities and resumes operations.

¹ As the LMS form does not permit an off-air date that is greater than 30 days, the date of September 3, 2019 has been listed in response to the station status question in the LMS form. A request for waiver of the due date for filing a request for silent STA set forth in Section 74.763(b) of the FCC’s rules is hereby respectfully requested.
