Re: WRIZ-LP, Boca Raton, FL
Facility ID No. 192731
All Media Services of America, Inc.
File No. 84253

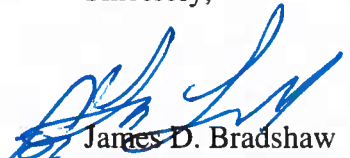

Dear Applicant:

The staff has under consideration the captioned minor change to a licensed facility construction permit application.

An engineering study has revealed that the proposed transmitter site specified in the application fails to meet the minimum spacing requirements of 47 C.F.R. § 73.807. Specifically, the site proposed is located 37.5 kilometers from the licensed facility (BLH-20050225AAQ) of WHYI-FM on channel 264C0 in Fort Lauderdale, FL and 37.6 kilometers from the licensed facility (BLH-20090828ADS) of WLYF(FM) on channel 268C1 in Miami, FL. The required spacing pursuant to § 73.807 is 84 kilometers for WHYI-FM and 73 kilometers for WLYF. The application provides an exhibit demonstrating no interference in a waiver request using a Scala FMV-2 two bay antenna at different coordinates whereas the application specifies a Nexus CP1 one bay antenna. This constitutes an acceptance defect.

Accordingly, in light of the above, application 84253 is unacceptable for filing and IS HEREBY DISMISSED. This action is taken pursuant to 47 C.F.R. § 0.283.

Sincerely,

James D. Bradshaw
Senior Deputy Chief
Audio Division
Media Bureau
