

Other Issues Explanation

KXLK-CDs was assigned channel 14 for post auction operation. This channel assignment necessitates remediation of potential interference to nearby land mobile operations. Further the existing KXLK-CD tower cannot accommodate KXLK-CD repack antenna nor can a smaller temporary antenna be installed without overloading the existing tower. KXLK-CD is negotiating for a lease on a nearby tower and intends to relocate. Consequently, KXLK-CD will not complete its transition by the phase 3 deadline.
