**Re: Request for Special Temporary Authority to Operate a Low Power
Television Station on Channel 36 at Homestead, Florida**

Dear Sir or Madam:

Motor Racing Network, Inc. d/b/a Racing Electronics ("Racing Electronics") hereby respectfully requests Special Temporary Authority to operate a Low Power Television Station on Channel 36 at Homestead, Florida for a period of six (6) days from November 13-18, 2019. Racing Electronics certifies that it will operate the facility in accord with the technical parameters attached hereto.

Racing Electronics proposes to broadcast automobile racing related programming on a limited basis to the attendees of several NASCAR events taking place at Homestead-Miami Speedway, a race track located in Homestead, Florida. Because Racing Electronics wishes to broadcast only to those people in the immediate surrounding area of the race track, Racing Electronics requires a limited service area of a two mile radius from 25-27-10 N, 80-24-32.5 W.

No one will be harmed by grant of the instant Request. Due to Racing Electronics' proposed limited use of channel 36, it is not likely that Racing Electronics will cause any party significant harmful interference. In the improbable event that Racing Electronics does cause interference to another licensed party, Racing Electronics is aware of its obligation to discontinue service immediately upon discovery of such interference.

The antenna to be used in the broadcast associated with the instant STA request will increase the overall height of the building to which it is attached by less than six (6) meters, thus negating any requirements for notifying, or coordinating with, the FAA. In addition to Racing Electronics' compliance with the 6.10-meter Rule criteria, please note that the venue where the above listed broadcast will take place has tall buildings and light poles on the premises which far exceed the height of the top of the broadcast antenna here at issue.

If you have any questions or require any additional information, please direct them to Mrs. Delaney M. DiStefano, Esq., Higgs Law Group LLC, 1028 Brice Road, Rockville, MD 20852, phone (301) 762-8992, fax (301) 762-9883, e-mail ddistefano@higgslawgroup.com.

Respectfully submitted,

Motor Racing Network, Inc.
d/b/a Racing Electronics
