

Licensee has been notified by TMobile that it must vacate Channel Channel 46 by April 12, 2019.

Licensee has a granted displacement application to move to Channel 14 but has not completed that build out yet.

We are making good progress on the Channel 14 re-build and anticipate that it would be completed by the end of CY 2019.

This is a continuation of STA silent authority granted on April 11, 2019 File No. 71553
