Re: KSWP CONDITION COMPLIANCE BPED-20160822AAX

CONDITIONS:

1. Licensee in coordination with other users of the site agrees to reduce power or cease operation as necessary to protect persons having access to the site, tower or antenna from radiofrequency electromagnetic fields in excess of FCC guidelines.
2. Manufacturer proof of performance has been uploaded to LMS.
3. Certification executed by a licensed surveyor has been uploaded to LMS.
4. Certification by qualified engineer that installation was overseen and installed pursuant to manufacturer instructions has been uploaded to LMS.
5. A map demonstrating that the measured antenna complies with community coverage requirements has been uploaded to LMS.
6. The ERI proof of performance, uploaded per condition #1 demonstrates that the measured antenna complies with the antenna pattern as authorized in the construction permit.

Sincerely,

A handwritten signature in black ink that reads 'Bert Goldman'.
