

## **CHANGE IN UHF TV ANTENNA**

**WNKY-TV DISPLACEMENT CP CH 24 90 kW MAX DA FCC FILE NUMBER 0000025367**

**BOWLING GREEN, KENTUCKY**

**OCTOBER 2019**

**The WNKY application for CP specifies an Alive Telecom ATC-BCE318P-VP1-24, elliptically polarized, directional antenna. After the CP grant it was determined that an ERI Trasar model ATW12H3-ESPX-24H, elliptically polarized, directional antenna, better met the station's needs. This is the installed antenna and it's theoretical horizontal plane radiation pattern is equal to the pattern on file. Based on the fact that the ERI antenna is equivalent it is respectfully requested that the license be issued specifying the ERI model number as shown in the license application associated with this application.**
