Dear Licensee:

This refers to your request for program test authority pursuant to the condition contained in the above referenced construction permit. The Commission required that the permittee submit documentation that objectionable interference will not be caused to existing land mobile radio facilities in the 470 to 476 MHz band.

Upon review and evaluation of the information submitted to satisfy the condition, we conclude that no objectionable interference is likely to result from operation of the constructed KVOS-TV facility. Therefore, in accordance to Section 73.1620(a) of the Commission's Rules, authority to commence program tests IS GRANTED.

Sincerely,

A handwritten signature in blue ink that reads "Kevin R. Harding". The signature is fluid and cursive, with the first letters of each word being capitalized and prominent.
