/1 There will be contour overlap normally prohibited by Section 74.1204. However, based on the undesired-to-desired (U/D) signal strength ratio method which is permitted by the FCC per Living Way Ministries, Inc., it has been determined that no actual interference would occur due to lack of population under Section 74.1204(d). See Technical Summary.

/2 Licensed W290DB operation.

/3 Proposal complies with the contour overlap provisions of Section 74.1204(a). See Figure 3.
