

PURPOSE OF POST-AUCTION STA EXTENSION

The purpose of this STA Extension is to request, *nunc pro tunc*, additional time for the KNWA-DT post-auction facility to continue operating using the same parameters as authorized in the previous STA on its post-auction channel (33) using a side-mounted directional interim antenna (TFU-16WB C160) while the new post-auction main facility continues to be built-out. The KNWA-DT post-auction build-out continues to move forward but has experienced delays due to delays in the field that are out of Nexstar's control. It is anticipated the main post-auction facility will be ready for operation in March 2020.

CERTIFICATION
