

**Request for Silent Authority STA  
KCOR-CD (formerly KNIC-CD)  
Facility ID 48837**

Unimas Partnership of San Antonio (“Unimas”), licensee of KCOR-CD (formerly KNIC-CD), San Antonio, Texas, Facility ID 48837 (the “Station”) holds a construction permit (“CP”), authorizing construction of its post-auction channel facilities, which initially was set to expire on June 21, 2019. On March 18, 2019, the station requested an extension of its CP (LMS File No. 0000068560), which was granted on June 20, 2019, with a new expiration of December 13, 2019. As stated in the CP extension request, the station intended to become silent on May 23, 2019 to conform with the Phase 3 repack deadline. Accordingly, it filed an STA for Silent Authority on May 24, 2019, which was granted on June 13, 2019. The Station has remained silent while it works to complete construction of its post-auction facility as expeditiously as possible.

The Station currently anticipates construction of its post-transition facility to be completed sometime in February 2020. The Station intends to return to service as soon as the new tower site is fully operational, but it must continue to remain silent as it completes the process of relocating its station equipment to the post-transition tower site. Accordingly, the Station hereby requests an additional six-month extension of its current STA for Silent Authority (a concurrent request for extension of CP is being filed).
