REASON FOR GOING SILENT

WIWU-CD has been operated in conjunction with the Media Communication program in the College of Arts and Sciences at Indiana Wesleyan University. This program is currently in the process of being re-evaluated and changed to Multimedia Communication.

As part of the re-evaluation, the University anticipates that the television station may no longer play a role in the program, in which event it will be offered for sale to another operator, and an appropriate application will be filed to assign the license.

Operation of the television station is being suspended during this time of uncertainty.
