

LMS Application Error Report

prepared 12/11/2019 for

UniMas Dallas LLC

KSTR-DT Garland, TX

Channel 34 1000 kW-DA 517 m

UniMas Dallas, LLC ("KSTR") identified an error on the KSTR License to Cover application. The LMS application incorrectly pre-populated the "*Station Type Field*" on the "*Channel and Facility Form*" as "Auxiliary". This is incorrect, this application is for the applicant's primary facility as identified in construction permit file number 0000093586. The station type field is pre-populated and can not be modified by the applicant. The applicant's legal contact consulted with FCC staff and was advised that this error would be corrected manually by staff when this application is processed.
