Online Public Inspection File Certification

To the licensee's knowledge, except as set forth herein, Cox Radio, Inc. ("CRI-Atlanta"), has timely placed in its physical and online public inspection files all documents required to be placed in the file by 47 C.F.R. 73.3526 and otherwise has complied with the Commission's public file requirements in all material respects.

Due to an administrative oversight, CRI-Atlanta failed to timely upload certain required files to the station's online public file. Specifically a portion of the first quarter 2012 Issues/Programs List was not uploaded to the online public file until October 4, 2019. The licensee has since uploaded materials to its online public file in a timely manner.

In making this certification, the licensee has reviewed its' public inspection files and has inquired of current employees who are knowledgeable of the contents and maintenance of the licensee's public inspection file. As used in this certification, the phrase "to licensee's knowledge" means licensee's actual knowledge, during the period that the licensee has owned the station, without further investigation other than as described in this exhibit.
