

Directional Antenna Installation Certification

WNJR

Washington, Pennsylvania

I am a broadcast engineer with over twenty years of experience supervising and installing AM and FM directional and non-directional antennas. I hold a General Radio Telephone Operator License issued as replacement for a First Class Radiotelephone Operator License. I hereby certify that the WNJR antenna, an S W R FMECR/1-PLUS-DA directional antenna, Drawing set 2190D, was assembled and installed according to the Manufacturer's instructions.

A handwritten signature in cursive script, reading "George Lasko", written over a horizontal line.
