

WWBC(AM) Online Public Inspection File

During its most recent license term, WWBC(AM), Cocoa, Florida (Facility ID No. 3071) complied with certain online public inspection file (OPIF) requirements as provided in Section 73.3526 of the Commission's Rules¹ except four of the Issues Programs Lists were not uploaded in a timely fashion. The delayed inclusion of these documents was an oversight and as soon as the licensee discovered the missing issues programs lists were not uploaded, the licensee corrected this matter. It should be noted, however, that for the Lists pre-dating the creation of and upload to the online public file, all of these Lists were maintained in the Station's paper public inspection file.

WWBC is not located in a top-50 market and does not have 5 or more fulltime employees. Thus, pursuant to 73.3526(b)(2)(i), WWBC's online public file compliance deadline was March 1, 2018.

The licensee takes its public inspection file obligations seriously and has established new procedures to ensure compliance with the OPIF requirements going forward.
