

Explanation of Extraordinary Circumstances

On February 18, 2020, W51EG-D ceased broadcasts in order to accommodate T-Mobile's operations in the 600 MHz band. W51EG-D has an outstanding construction permit to operate on channel 34 (*see* LMS File No. 0000073090) and anticipates that it will remain silent until such time as it has completed construction of its authorized channel 34 facility.
