RE: Radio Station Interference

To Whom It May Concern:

My name is Elena Bolorin, I live in Manchester, Connecticut.

I listen to W S G G 100.1 FM.

Last 2 weeks it's been very frustrating as I can't get a good signal at my home.

There's another station out of Massachusetts interfering with W S G G's signal. It seems that I have to move around the house to get signal or end up turning radio off completely.

This is very annoying and it should be look into.

Is this legal? If not, what is being done about it?

Sincerely,

Elena Bolorin

To whom may be interested

By the present letter I William Crespo with residence in 18 Broadview Lane, East Windsor CT 06088. I want to report that. I`m not hearing my favorite radio revival programming since it is being interrupted by another radio station that is entering the revival 100.1fm radio frequency, causing that both, I and my family cannot enjoy our programming. The radio revival 100.1fm is blessing for our family.
