

K04RS-D
Environmental Statement
02/25/2020

The applicant proposes to operate at 150 watts horizontally polarized at a height of 5 meters. The site is a well-controlled fenced site with controlled access. This proposal is well within the FCC's permissible levels for radiation exposure. Nevertheless, the applicant will ensure that placards warning of radiation hazard are always posted in and around the site and station staff are trained how to turn off the transmitter in the event that anyone climbs the tower.
